

February 2, 2007

Cherokee Investment Partners has been working over the past few months to lay out a development that seeks to meet the goals of both the City and developer investment. The developer has been working to complete a rezoning submittal to incorporate initial public and City Council input. We expect to receive an application within the next 30-60 days, and will update this Web site once the proposal is ready for additional public input. Opportunities for informal public input and for the formal public hearing process will be posted as soon as a schedule becomes available.
